

Control What Inspectors Look For.™

**YOU DON'T FAIL ONCE.  
YOU FAIL WHEN IT COMES BACK**

STIKIS™ Captures Cockroaches Before Inspectors Find Them.  
It Tracks Activity and Creates Proof of Control Between Inspections.

- Captures cockroaches where they hide
- Tracks activity between service visits
- Creates proof for inspection

**INSTALL STIKIS™ BEFORE YOUR NEXT REINSPECTION**

[STIKISCONTROL.COM](http://STIKISCONTROL.COM)

RECURRING ACTIVITY MEANS CONDITIONS WERE NEVER CONTROLLED — **AND INSPECTORS WILL FLAG THE PATTERN.**

➤ **HOW STIKIS™ WORKS:**

1

Installed where  
cockroaches start  
(under sinks, equipment, wall gaps)

TRACK IT

CONTROL IT

PROVE IT

2

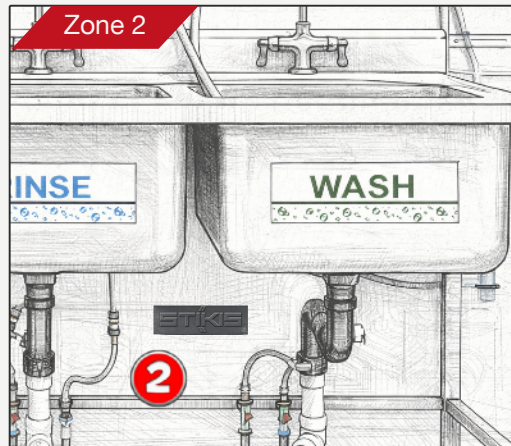

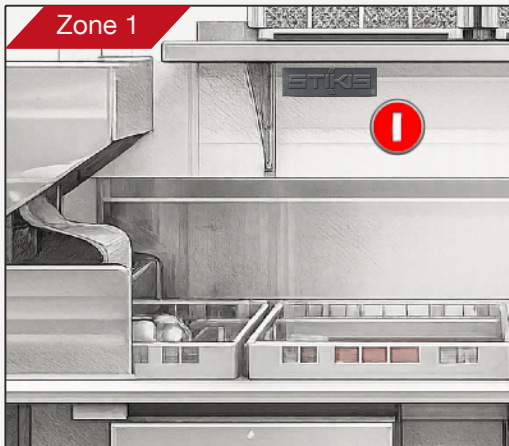

Captures them  
as they move  
(intercepts activity before spread)

3

Tracks activity before  
inspectors do  
(creates visible, documented control)

IF IT'S NOT CAPTURED, IT'S NOT CONTROLLED.  
IF IT'S NOT CONTROLLED, **INSPECTORS WILL FIND IT.**

WORKS ALONGSIDE YOUR CURRENT SERVICE TO ENSURE ACTIVITY IS TRACKED — NOT MISSED.
